## CUSTOM ARTWORK BY NICKY MYNY

### WHAT IS A COMMISSION?

A commissioned artwork is an art piece that is made by an artist according to your wishes. It is a unique way to get an original piece guided by you, instead of purchasing existing artwork.

### COMMISSIONS ARE GREAT FOR

Are you looking for the perfect art piece for your home? Or trying to find an original present for family and friends? Commissions may be just the thing!

Whether you need a specific size painting designed perfectly around colors that represent YOU, or an inspired version of another beloved painting, we can guarantee something magical to make your walls come alive.

Reach out and let us help find what would work best in any space -we'd love to help bring it all together into one **beautiful masterpiece**.

### HOW DOES IT WORK?

You can commission a unique piece of art **tailored to your specific needs** and vision, not two pieces are alike! Book a clarity call to determine your vision, size, and budget.

Once your deposit is received, I take the time to prepare and order all the necessary supplies so your piece is **high quality** and done correctly.

Your commissioned artwork will be created over **4-8 weeks**, depending on the size and complexity, ensuring that you receive a one-of-a-kind masterpiece.

Your piece will be **shipped promptly** taking up to 1 week for domestic orders and 2 weeks for international orders, ensuring that you receive your artwork as soon as possible.

## GUIDING YOUR INQUIRY

You can provide as little or as much direction as you like, however, when I paint I follow my instinct and have my own creative process and style.

I will use the colors you chose and the insight you provide in order to create a cohesive painting of your desire.

You may know the size you'd like to have, or I can make helpful recommendations.

If you are inspired by a past painting, let me know and we can pull inspiration from it.

## THE PROCESS

After discussing your vision for the painting in terms of size, color, and style preferences as well as budget considerations, I'll send you an invoice that outlines payment information.

With a partial payment on booking at 50% of the total price, all other payments should be made before shipping begins. Usually, it takes between 4-6 weeks to complete, with some extra time added if necessary; however, any delays will always be communicated clearly upfront when reservations are booked.

You're also sure to receive photos prior to completion, so anything can still be adjusted regarding vibrancy or details - giving this piece its own unique flair! Once those final touches have been put into place including framing (if desired), then you're ready to take home this beautiful new addition.

Some pieces might be shipped rolled depending on the sizes, to avoid damaging the artwork. I will communicate beforehand if that is the case.

The sizes listed in this section are common sizes used for commissions, but this is by no means an exhaustive list. All prices are including VAT.

The mentioned rates are made for abstract works. **Commissioned portrait** rates are made exclusively on request. Visit [nickymyny.com](http://nickymyny.com) for more information

# FAQ

## FREQUENTLY ASKED QUESTIONS

### HOW DOES PAYMENT WORK?

An invoice is sent for the total amount of the commission, but only 50% is required up front to book. The other half needs to be paid at any point before the painting is shipped to you.

### ABOUT PAYMENT AND REFUNDS

Fifty percent is required up front so that I can order supplies and begin work on your piece. Payments are non-refundable once made, due to the custom nature of the work.

### DO YOU PAINT SIZES OTHER THAN WHAT'S LISTED IN THE OPTIONS ON THIS SHEET?

Absolutely! I can make just about any size work, so we can create a piece that truly fits your space.

### HOW DO I KNOW WHAT COLORS TO CHOOSE?

Some clients choose a few colors based on the room the piece will be hanging in, or colors that are simply their favorites. From there, I flesh out a full palette with complimentary colors while creating the piece. Alternatively, you don't have to choose colors at all. You can simply be inspired by a mood, a photograph, or something that's not tangible at all.

### MY PAINTING WILL SHIP TO ME ROLLED. HOW MUCH IT WILL BE TO HAVE IT STRETCHED?

Your painting will need to be stretched and stapled back onto bars by an experienced professional. To find one in your area, Google "Framer near me," "Custom framing near me," or "Canvas shop near me." Once you find local businesses, you can call or send them an inquiry to get a price estimate. Just let them know that you ordered a canvas painting that will arrive rolled, what size it is, and that you'd like it put back on stretcher bars. All you will need to bring to them is the painting. They will have the bars to complete your job.

### HOW LONG DOES A COMMISSION TAKE TO COMPLETE?

The timeline for completion is typically 3 weeks, however many things can influence this, including the need to order supplies, holidays, events and other things on my schedule. I always provide a unique timeline estimate before you book that takes all of those things into consideration for your specific commission.

### CAN I RECEIVE MY PAINTING FRAMED?

Yes! We work together with a specialized frame shop that guarantees quality and many different options in style, material, and colors. The cost will be communicated beforehand and added to your invoice.
